

Ffrwd Ganol Holiday Cottage

Arrival information

Your cottage will be ready for you from 4pm. A key will be left in a key safe next to the door.

The access code for the key is the last four digits of the MOBILE number you have supplied.

When opening the door turn the key to the RIGHT and use the door handle below at the same time.

We have left detailed instructions for everything you might require within the cottage, however, please telephone us if you require any help.

We request that you vacate your cottage before 10am on the date of departure to enable us to fully clean and prepare the cottage for the next guests

We have our own website for the cottages www.ffrwgdganolcottages.co.uk Our home page gives information on what is provided within the cottages.

I am also attaching some information regarding shopping, pubs and restaurants in the area in case you might like to book in advance of your arrival.

Due to the rural location of the cottages there is unreliable phone signal when indoors. We rely totally on our phones connecting via Wi Fi Calling. Most phones are equipped with this facility and if you utilize this you will be able to make and receive calls with no problem. If your phone doesn't have this facility it can be necessary to walk to a slightly higher position in the lane to get a signal.

During this time of significant increases in Energy costs we are asking kindly that you are mindful of these costs and turn heating down when you are leaving the cottage for a trip out etc. This will make a huge difference to us being able to retain the affordable rental costs that we currently offer. Many thanks.

I attach detailed directions as we can be a little tricky to find in the last half mile if relying on Sat Nav.

Our final approach is via a narrow lane, please drive slowly if accessing in a low profile cars as some damage to the tarmac occurs due to weather and tractor access. We have a low profile car and have no problem 😊

Travel safely and see you soon
